

Regional Director Report – February 2025

ACBL Clubhouse

As of January of 2025, the only place where you can get red, silver and gold points online is by playing in the ACBL Clubhouse. The ACBL Clubhouse is a new site that provides games for every level of play and unlike the ACBL World Games that are owned by BBO, the ACBL Clubhouse awards black points in every game.

During every week of special online games, the ACBL Clubhouse awards “glitter” points.

When you sign in on BBO, you can find the Clubhouse Games just under ACBL World

The next time that you are planning on playing online, check out the schedule of games available in the ACBL Clubhouse. By playing in these games you will support your local face-to-face clubs and local egames.

ACBL will distribute \$2.82 of each Clubhouse player’s \$6 entry fee to each player’s affiliated club. Affiliated clubs are:

- Face- to- face clubs where the player has participated within the past year.
- Small Affinity e-Clubs where you have played in the last three months.

All revenue will be shared among these clubs on a prorated basis, with face-to-face clubs guaranteed at least 50% of the distribution.

Support your local club by playing in the ACBL Clubhouse. Keeping our local clubs alive and active is important to the future of our game.

Joann
